SELLERSBURG- Due to the recent flooding in Clark County, the local Red Cross, and Clark County Health Department have decided to hold a clinic on Monday July 24th, from 2 p.m. till 8 p.m. at Silver Creek Elementary School. Nurses will be giving affected residents and anyone working in the flood waters tetanus shots free of charge.

If you were exposed to the recent flood waters and you have not had a booster shot in 10 years or more -- or never had the initial 3-shot series -- you should be vaccinated.
